

Awakening - DIY activity

Bring crafting and DIY world to children with the **Croctoys** DIY wooden toys !

With **Croctoys**, children will learn the basics of crafting and woodworking. Using a file, gluing and clamping. They will develop their fine motor skills. Finally crafting is perfect to develop children creativity and imagination.

Croctoys is a perfect activity for everyone. The youngest will craft their toys together with their parent in a special sharing time. From 7, the child can build the toy alone.

Values - qualities

CROCO
RICO!

Croctoys, it's always reasoned choices.

Made in France

Our products are craft made in France in our workshop in the Drôme hills(26).

Wooden materials

Our products use innovative materials such as Valchromat® combine with raw beech.

Local partners

Our suppliers are, as far as possible, French or from european union.

Safe Children

All our toys are tested by a third party laboratory and comply to the European Standards (EN-71).
