Vertical installation

Horizontal installation

2-pipe system

Heating

Hygrothermal comfort in the industrial and commercial sectors

In line with recent regulatory developments regarding energy efficiency, Galletti is updating its offering of fan heaters for heating systems to be used in industrial and commercial environments of any volume.

The new AREO, which was designed to meet the stringent requirements of the ERP Directive, retains unchanged the distinctive aspects of the original design, that is, extreme reliability and sturdiness.

AREO's cover, which is made of pre-painted steel sheet, possesses an original design with a rounded shape that enhances its aesthetic form.

The AREO range consists of 18 models that can be either wall mounted (horizontal air flow) or ceiling mounted (vertical air flow).

The units are available in 6 sizes with 2-, 3- or 4-row heat exchangers ensuring an efficient performance with hot water supplied by a boiler or heat pump (4-row models).

PLUS

- ✓ Low noise levels
- ✓ Wide operating range (up to 60 °C intake air)
- ✓ Axial fan with blades with an aerodynamic profile (HyBlade® technology)
- ✓ Electric motor, class F, approved for continuous operation
- ✓ Economical version with single-speed and single-phase power supply

AVAILABLE VERSIONS

Single-phase and three-phase electric power supply

AREO P

Fan heaters for hot water heating, with side water connections.

AREO H

Fan heaters for hot water heating, with vertical water connections, for replacement of indoor units installed in existing systems.

AREO S

Fan heaters for steam heating, with vertical water connections.

AREO L

Fan heaters for hot water heating, equipped with air-curtain diffuser, ceiling mounted.

MAIN COMPONENTS

Fan drive assembly

The motor and fan are a single integrated unit optimized to achieve maximum aerodynamic efficiency. In fact, conformity to ERP2015 is guaranteed, even for the versions with single-phase power supply.

Electric motor

Tropicalized motor directly coupled to an external rotor, standard, with the following features:

- equipped with internal thermal protection
- windings in class F
- protection rating IP54
- maintenance-free ball bearings

Axial fan

With blades with an optimized aerodynamic profile (HyBlade® technology), statically balanced, inserted in a housing that enhances aerodynamic performance and minimizes noise.

Cabinet

Made of pre-painted steel sheet, complete with ABS corners, and manually adjustable aluminum baffles located on the air outlet for optimum distribution in the room to be heated.

Safety cage

Made of electrogalvanised steel wire, it supports the motor and is fixed to the cabinet by means of vibration-damping supports.

Heat exchanger

Made of copper pipes and aluminium fins of high thermal conductivity to optimize heat exchange.

ACCESSORIES

CONTROL PANELS

CST	Delta/star selector for installation in electric panels
CSTP	Delta/star selector for wall mounting
TA	Ambient thermostat
CSD	Wall-mounted potentiometer for opening and closing the PAE MM motor driven louver

MOUNTING BOARDS

DFP	Wall mounting board
DFC	Column mounting board
DFO	Adjustable wall/column mounting board

PROTECTIVE MESH FOR GYMS (BALL SHIELD)

R	Protective mesh for gyms
----------	--------------------------

DIFFUSERS

DO	Two-row fin diffuser
LA	Air curtain diffuser (only for AREO L)

EXTERNAL AIR INTAKE

PAE	External air intake
PAEM	Manual mixing louver (only for AREO P)
PAEMM	Motor driven mixer louver, modulating motor, power supply 24V, spring return (only for AREO P)

EXTERNAL AIR INTAKE RAIN PROTECTION GRILLE

GR	External air intake rain protection grille
-----------	--
